

DCM 7 (STE)

COMPACT INSTANTANEOUS WATER HEATER

PRODUCT-NO.: 203770

Electric instantaneous water heater with rapid heater and precise electronic temperature control. An excellent choice for small to medium amounts of hot water, for example to supply a hand washbasin and a shower. This DCM model comes in a super compact size for bathrooms with limited space. With the rapid heating element, you can have instant hot water whenever you please.

The main features

Maximum shower comfort with precise electronic output temperature control

3-step temperature selection (40, 50, 55 °C)

Sufficient hot water for multiple draw-off points

“Rapid Composite Heater” – ultrafast heating element

Highly efficient composite polymer tank for reduced heat loss and electricity consumption

Compact design for space saving installation

Anti-scalding and overheating protection with thermal cut-out

Protection from electric shock with Earth Leakage Circuit Breaker (ELCB)

Protection class IP25 (splash-proof)

Type	DCM 7 (STE)
Part no.	203770

Technical data

Height	270 mm
Width	145 mm
Depth	78 mm
Weight	1.5 kg
Electrical fuse protection	ELCB
Rated output	6.5 kW
Rated current	29.5 A
Water connection	1/2 inch
Shutdown value	1.2 l/min
Starting flow rate	2 l/min
Type	Closed outlet
Automatic flow switch	true
Cylinder type	Plastic
Temperature setting	3-stage 40/50/55 °C
Temperature control	Electronic temperature control
Anti-scalding protection	Thermostat with manual reset

IP rating	IP25
Colour	white
