PRODUCT-NO.: 203770

DCM 7 (STE)

COMPACT INSTANTANEOUS WATER HEATER

Electric instantaneous water heater with rapid heater and precidse electronic temperature control. An excellent choice for small to medium amounts of hot water, for example to supply a hand washbasin and a shower. This DCM model comes in a super compact size for bathrooms with limited space. With the rapid heating element, you can have instant hot water whenever you please.

The main features

Maximum shower comfort with precise electronic output temperature control

3-step temperature selection (40, 50, 55 °C)

Sufficient hot water for multiple draw-off points

"Rapid Composite Heater" - ultrafast heating element

Highly efficient composite polymer tank for reduced heat loss and electricity consumption

Compact design for space saving installation

Anti-scalding and overheating protection with thermal cut-out

Protection from electric shock with Earth Leakage Circuit Breaker (ELCB)

Protection class IP25 (splash-proof)

Туре	DCM 7 (STE)
Part no.	203770

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
