

DEM 6 (STE)

COMPACT INSTANTANEOUS WATER HEATER

PRODUCT-NO.: 203769

The main features

Maximum shower comfort with precise electronic output temperature control

Temperature limit adjustable from 30-50 °C

Sufficient water for multiple draw-off points

Instant hot water thanks to rapid and maintenance-free bare wire heating system

Special heating element suitable for hard water

Rapid heating of just the required amount of water saves electricity

Compact design for space saving installation

Oversink and undersink installation possible (unit can be turned 180°)

Can be operated with high and low pressure taps

Protection class IP25 (splash-proof)

Automatic on/off control with flow switch

Flame-retardant electronic circuit board for extra safety

Hydraulic flow control to compensate for pressure fluctuations

Maximum shower comfort with precise electronic output temperature control

Temperature limit adjustable from 30-50 °C

Hydraulic flow control to compensate for pressure fluctuations

Type	DEM 6 (STE)
Part no.	203769

Technical data

Height	143 mm
Width	190 mm
Depth	82 mm
Weight	1.6 kg
Water connection	1/2 inch
Rated output	6.0 kW
Rated current	27.3 A
Shutdown value	1.15 l/min
Starting flow rate	2.2 l/min
Type	Closed outlet
Automatic flow switch	true
Cylinder type	Plastic
Temperature setting	Variable 30-55 °C
Temperature control	Electronic temperature control
IP rating	IP 25
Colour	black

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
