

4 IN 1 CARTRIDGE

REPLACEMENT CARTRIDGES / ACCESSORIES

PRODUCT-NO.: 235064

4-in-1 filter cartridge used with Rain and Rain Plus drinking water filters.

This filter medium is made from polypropylene, coconut carbon, bamboo carbon and coral sandstone, and demonstrates an outstanding performance in pre-filter filtration stages. The large activated carbon volume reduces herbicides, pesticides and turbidity, adsorbs chlorine, VOCs and TTHMs, and is also able to remove heavy metals such as lead and mercury. "Bamboo and coconut" carbon has excellent absorption properties to reduce unpleasant tastes, odours, herbicides and pesticides, and adsorb chlorine for cleaner and better tasting filtered water. Coral sandstone slightly improves the pH value of the filtered water.

The main features

4 stages in 1 compact encapsulated filter for easier filter replacement

Large carbon layers for great tasting filtered water

Coral sandstone provides a natural source of calcium in filtered water

Hygienic encapsulated cartridge

Easy filter replacement, no tools needed

Type	4 IN 1 CARTRIDGE
Part no.	235064

Technical data

Filtration stages	4 Stage
Filter stage 1	Granulated activated carbon
Filter stage 2	Coral sand
Filter stage 3	Sediment - 10 #m
Filter stage 4	Bamboo activated carbon mixing block - 1 #m
