STIEBEL ELTRON

Technical datasheet

Activated carbon block 13" (STE)

REPLACEMENT CARTRIDGES / ACCESSORIES

PRODUCT-NO.: 222329

Second stage sediment filter cartridge used with Stream and Stream 5S drinking water filters.

This filter medium is made from coconut shells and delivers outstanding filtration performance. The activated carbon reduces herbicides, pesticides and turbidity, adsorbs chlorine, VOCs and TTHMs, and is also able to remove heavy metals such as lead and mercury.

The main features

- **Large carbon surface area for efficient particle removal**
- **High quality carbon material for better taste and filtration performance**
- **Strict quality control in both temperature and material ensures optimum performance of the carbon block**
- **Hygienic encapsulated cartridge**
- **“Push & click” system for easy filter replacement**

Type	Activated carbon block 13" (STE)
Part no.	**222329**

Technical data

Length of filter medium	**13 Inches**
Filtration stages	**1 Stage**
Filter stage 1	**Activated carbon block - 0.5 #m**

Due to the absence of CE certificates water filter products from Thailand are not permitted to be sold in the European Union.
