

MAXSTREAM CARTRIDGE (STE)

REPLACEMENT CARTRIDGES / ACCESSORIES

PRODUCT-NO.: 200272

The MAXSTREAM is one of the most compact commercial drinking water filters for metropolitan tap water, removing 99.9999 % of bacteria and 99.99 % of viruses. As one of the safest commercial water filters on the market, it also comes with the Sanitary Quick Change filter cartridge for quick and hygienic cartridge replacement.

The MAXSTREAM water filter can be used for both domestic and commercial applications with no storage tank, water wastage or electricity. It fits under a standard kitchen sink or can be wall mounted.

The MAXSTREAM can be installed with multiple outlets, such as a drinking water tap, fridge, hot/cold water dispenser or coffee machine, and is suitable for homes, restaurants, coffee shops, offices or factories.

The main features

4 stages in 1 compact encapsulated filter

Nano EPM filtration technology for removal of 99.9999 % of bacteria and 99.99 % of viruses with no water wastage

Instant high flow rate for large drinking water demands without water wastage

“Plug & play” installation – no electricity or storage tank required

Space saving thanks to compact and sturdy design

Wide range of applications such as direct consumption, hot/cold water dispenser, fridge, coffee machine or ice maker

Simply twist the cartridge for easy filter replacement

Type	MAXSTREAM CARTRIDGE (STE)
Part no.	200272

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
